Re: OWCP#145053957

Dear Mr. Felser,

I contacted you about 4 or 5 months ago because I needed help with my Workers Compensation claim. I had already been denied twice by that time.

After contacting you, we filed again on October 14, 2011 after getting my medical exams done. On November 3, 2011 I received notice that my claim for the condition in both my shoulders had been accepted by OWCP. I had my first surgery on Dec 28, 2011 and I know that without your help I would not be at this point and would still be suffering from the pain in both my shoulders.

Thank you so very much for your guidance in this matter. I know that the pain I've suffered with the last few years will be alleviated soon and I look forward to getting my life back. I was really shocked and amazed that something I've suffered with for so long is finally being brought to an end and all because I was finally referred to someone that could guide me through the maze that is the FECA/OWCP.

Again, thank you, thank you, thank you! I am most appreciative of all your efforts on my behalf.

Sincerely,

Nailah A. Nadeal
