Dear Mr. Felser,

My wife and I can not thank you enough for your expert help in the matter of my Federal Worker's Comp. claim. Since my injury of March 18, 2008, it has been a nightmare, to say the least, getting them to get me the help I needed, so I could get relief from my pain, and possibly get back to work.

We tried to go it alone, in dealing with this process. It eventually lead to them claiming my injury had resolved itself, and they terminated my compensation and medical benefits. This was not the case, being verified by my doctors, I knew this was an unfair decision, and I needed someone to help me prove my case.

Getting you to represent me, I realize was the best decision I could have made. You did not have much time to review my records, and present them with an appeal. But you pulled it off, and even amazed me.

All your hard work, and knowledge of this whole process was what won this appeal for us. You presented a great case, and represented me very well.

I would highly recommend your services to anyone in need of someone to help in this area of law. It is such a comfort to place your trust in someone so good in their field of expertise.

Again, thank you and God bless you , for all you have done.

Sincerely, and with great gratitude,
