Date of Injury: _____

Dear Mr.

Under the schedule award provisions of the Federal Employees' Compensation Act (FECA) at 5 U.S.C. 8107, the Office of Workers' Compensation Programs makes the following:

AWARD OF COMPENSATION

1. Degree and Nature of Permanent Impairment: 50% impairment rating of the left lower extremity due to the surgical procedures that were performed on 04/09/2010, 05/02/2011, 10/31/2011 and 11/12/2011
2. Date of Maximum Medical Improvement: 11/18/2015
3. Period of Award: 11/18/2015 to 08/21/2018
4. Number of Weeks of Compensation: 144
5. Weekly Pay: \$1023.69 X Compensation Rate: 75 % = \$767.77
6. Effective Date of Pay Rate: 02/14/2011
7. After Cost-of-Living Adjustments, Your Weekly Compensation is: \$820.25
8. Your Initial Payment and the Period Covered: \$6,210.46 which encompasses the period of 11/18/2015 to 01/09/2016
9. Your Continuing Payment each Four Weeks: \$3281.00

Payment of your award ends when you have been paid for the last day shown in item 3 above.

Section 8107 of the Federal Employees' Compensation Act (FECA) and its implementing regulations (20 CFR 10.404; see also 20 CFR Part 10) set forth the number of weeks of compensation to be paid for the permanent loss or loss of use of specified members, functions and organs of the body known as permanent impairment. The commencement period of the award is usually the date of maximum medical improvement, the date that the physical condition of the injured member has stabilized and is not expected to improve further.

The FECA, however, does not in most instances specify the manner by which the percentage loss of a member, function or organ shall be determined. To ensure consistent results and equal justice under the law, good administrative practice requires the use of uniform standards applicable to all claimants. The implementing regulations have adopted the American Medical Association, *Guides to the Evaluation of Permanent Impairment*, as the appropriate standard for evaluating schedule losses. Currently, schedule awards are calculated using the Sixth Edition of the *AMA Guides*.

If you have a disability (a substantially limiting physical or mental impairment), please contact our office/claims examiner for information about the kinds of help available, such as communication assistance (alternate formats or sign language interpretation), accommodations and modifications.

Note to attorney/representative: According to our records you are the authorized representative in the above case. This correspondence is directed to you for you to handle in this capacity. If the correspondence indicates a response is required, it is expected you will arrange for it. If you have any questions, please contact us at the above address.

The percentage of permanent impairment noted above was based on the medical findings and report of Dr. _____ dated 11/18/2015 and the report of the District Medical Advisor (DMA) dated 12/19/2015. Copies of these reports are provided for your reference.

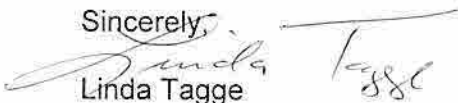

The treating physician provided an impairment rating of 50% of the left knee in his report dated 10/05/2015. The DMA reviewed the medical evidence in file including the treating physician's report. In a report dated 10/21/2015, the DMA concluded the percentage provided by the treating physician was unacceptable because the rating cannot come from both the 5th and 6th edition of the AMA Guides as claimed by Dr. _____. The DMA also indicated that the report did not include the history and physical examination findings. Particularly the Range of Motion measurements and the impact of the Grade Modifier Tables were not correctly processed. The DMA concluded you needed to be scheduled for a second opinion medical examination to resolve the question of entitlement to a schedule award for residuals of your work-related injury.

Dr. _____ performed a second opinion medical examination on 11/18/2015. In a report dated 11/18/2015, the second opinion specialist concluded you have a 50% impairment rating of the left lower extremity. The second opinion specialist took a thorough history, reviewed your medical records, and conducted a physical examination. Turning to Table 16-3 on page 511 of the AMA Guides, Dr. _____ assigned a Class IV Impairment for primary knee joint arthritis, no cartilage interval. This was based upon the x-ray findings of Dr. _____. The Grade modifier functional history = 2. Grade modifier physical examination = 3. Dr. Kafka indicated that the Grade modifier clinical studies are not utilized as it defines the diagnosis based impairment. He notes that the default impairment cannot be reduced below Grade C, and therefore remains at 50%.

The District Medical Advisor (DMA) reviewed the second opinion specialist's report and provided a report dated 12/19/2015. The DMA for the most part concurred with the assessment and rating provided and the date of maximum medical improvement (MMI) identified. Using Table 16-6 page 516, Functional History Adjustment, a Grade Modifier 1 was used based on the history. It was noted by the DMA that Dr. _____ used the AAQS Lower Limb Inventory and used Grade Modifier 2 but did not include the numeric value of the AAQS inventory in his report, so the DMA used Grade Modifier 1. The final impairment would be moved to the left 2 (as you cannot change impairment classes) and the final permanent partial impairment of the left lower extremity would still be 50% Grade A.

If you disagree with this decision, you should carefully review the attached appeal rights, and pursue whichever avenue is appropriate to your situation

Sincerely,

Linda Tagge
